

## Endocrine Disrupting Chemicals (EDCs) Research Program Long-Term and Annual Measures

### **Long-Term Outcomes**

As part of its review, the BOSC will provide ratings of the program's progress toward each long-term goal.

	2009 Baseline	2013 Target
Rating of the appropriateness, quality, and use of ORD science intended to reduce uncertainty regarding the effects, exposure, assessment, and management of endocrine disruptors (LTG 1).	TBD by BOSC	TBD
Rating of the appropriateness, quality, and use of ORD science intended to determine the extent of the impact of endocrine disruptors on humans, wildlife, and the environment (LTG 2).	TBD by BOSC	TBD
Rating of the appropriateness, quality, and use of ORD endocrine disruptors screening and testing assays to create validated methods that evaluate the potential for chemicals to cause endocrine-mediated effects (LTG 3).	TBD by BOSC	TBD

### **Annual Outputs**

At the end of the fiscal year, the program reports on its success in meeting planned annual outputs in key areas.

#### **Improved protocols for screening and testing.**

Fiscal Year	Actual	Planned
2001	9	9
2002	10	10
2003	8	8
2004	3	3
2005	2	2
2006	1	1

#### **Assessment Milestones Met.**

Fiscal Year	Actual	Planned
2001	1	1
2002	0	0
2003	1	0
2004	1	1
2005	0	0
2006	1	0

**Endocrine Disrupting Chemicals (EDCs) Research Program**  
**Long-Term and Annual Measures**

**Risk Management Milestones Met.**

Fiscal Year	Actual	Planned
2001	2	2
2002	0	0
2003	3	3
2004	5	5
2005	5	5
2006	3	3

**Effects and Exposure Milestones Met.**

Fiscal Year	Actual	Planned
2001	22	22
2002	22	22
2003	18	18
2004	5	5
2005	5	5
2006	9	9
